OmniTech Retail Solutions

Global Return, Refund, and Exchange Policy

Version 4.2 — Effective Date: January 1, 2026 — Document Reference: DOC-01-RRP

1 1. Scope and General Principles

OmniTech Retail Solutions is committed to providing customer satisfaction while maintaining strict control over logistics and inventory operations. This document sets forth the comprehensive terms governing product returns, refunds, and exchanges across all retail locations, online storefronts, and B2B orders. All employees and support agents must strictly adhere to the guidelines established herein.

1.1 1.1 Standard 30-Day Unopened Hardware Window

For all unopened, sealed hardware products—including desktops, peripherals, network equipment, and accessories—customers are entitled to a full refund within **30 calendar days** from the original delivery or in-store purchase date.

- The original purchase invoice or digital receipt must be presented.
- Products must remain in factory-sealed condition with all original tamper-evident seals intact.
- Zero restocking fees apply to verified unopened items returned within this window.

1.2 1.2 Opened Laptops and Portable Computing Electronics

Due to rapid value depreciation, digital licensing, and sanitation requirements, specific return windows and conditions apply to opened portable computing equipment:

- **14-Day Window:** Opened laptops, notebooks, tablets, and handheld gaming devices carry a strict **14-calendar-day return window** from the timestamp of delivery or store pickup.
- **Restocking Fee:** All opened laptop returns are subject to a standard **15% restocking fee** if the protective factory film has been removed or if the device has been fully booted and configured.
- **Mandatory Inclusions:** The item must be returned with all original packaging, AC power adapters, modular cables, user guides, and bundled accessories. Missing non-essential accessories will result in a deduction from the total refund amount based on individual component MSRP.

1.3 1.3 Non-Refundable Product Categories

The following categories are strictly excluded from standard return mechanisms and are considered final sale:

1. Digital software licenses, product activation keys, and pre-paid gaming cards once revealed or activated.
2. Custom-built PC configurations and custom-engraved peripheral units.
3. In-ear headphones and sanitary wearables once the hygienic seal is broken.

Table 1.1: Return Eligibility Restocking Matrix

Category	Return Window	Restocking Fee	Key Condition
Unopened Hardware	30 Days	0%	Original factory seal intact.
Opened Laptops	14 Days	15%	Receipt required; all accessories included.
Defective on Arrival (DOA)	7 Days	0%	Rapid exchange or immediate store credit.
Digital Software Keys	Non-refundable	N/A	Final sale upon delivery.

2 2. Special Returns and Defective Products

2.1 2.1 Defective on Arrival (DOA) Protocol

Products that exhibit hardware failure or critical component defects upon first boot are designated as **Defective on Arrival (DOA)**.

- **7-Day Immediate Window:** If reported within **7 calendar days** of receipt, the customer is eligible for an immediate replacement or a 100% refund with zero restocking fee.
- **Pre-paid Return Labels:** OmniTech will issue a pre-paid expedited shipping label for DOA units.
- **Verification Process:** Returned DOA items undergo hardware diagnostic testing by internal technicians. If no defect is found, a 15% restocking fee plus shipping charges will be deducted from the refund.

2.2 2.2 Return Merchandise Authorization (RMA) Requirement

Under no circumstances may a product be shipped back to an OmniTech fulfillment warehouse without an active **Return Merchandise Authorization (RMA) number**.

1. The customer or support representative must log into the staff portal and generate an RMA ticket.
2. The RMA number must be visibly printed on the outer shipping carton (not on the product retail box).
3. Packages received without a valid RMA number will be rejected at the receiving dock and returned to sender at their expense.
4. Approved RMA tickets remain valid for **10 business days** from issuance.

3 3. Refund Processing and Financial Timelines

3.1 3.1 Payment Method Specific Timelines

Once a returned item passes dock inspection and quality verification, refunds are processed according to the original payment channel:

- **Credit / Debit Cards:** Refunds are credited back to the issuing bank within **5 to 7 business days**.
- **Store Credit / Gift Cards:** Instant balance restoration upon RMA sign-off.
- **Cryptocurrency Purchases:** Non-refundable to crypto wallets; issued as OmniTech Store Credit at the original USD invoice conversion value.

3.2 3.2 Return Shipping Charges

Return shipping fees are the sole responsibility of the customer unless the return is due to an OmniTech shipping error or a verified DOA hardware failure. Customers are strongly encouraged to use tracked and insured carrier services for items valued over \$100.
