

Document 15: Store Pickup, Automated Smart Locker, and Express Fulfillment Guide

Omnichannel Retail Logistics & Supply Chain Operations

Version 2.4 — Updated October 2026

1 Omnichannel Pickup Options

To accelerate order delivery and avoid home shipping costs, customers can select either In-Store Express Pickup, Curbside Pickup, or 24/7 Automated Smart Lockers during checkout.

2 Curbside & In-Store Express Pickup Guidelines

2.1 Processing Service Level Agreements (SLA)

- **Same-Day Readiness Window:** In-stock orders submitted before 12:00 PM local store time are processed, picked, packaged, and marked ready for customer pickup within 2 hours.
- **Notification Protocol:** Customers must wait until receiving an explicit “Ready for Pickup” notification email or SMS prior to traveling to the fulfillment center.

2.2 Identification & Verification Requirements

To prevent package theft, order release requires the customer to present:

1. A valid government-issued photo ID (Driver’s License, Passport, or State ID matching the primary billing profile).
2. The original order confirmation email displaying the digital barcode/QR code.

3 Automated Smart Locker Operations & Unclaimed Orders

Selected retail sites feature automated 24/7 exterior pickup lockers for contactless order retrieval.

3.1 Locker Access Rules

- **Secure Access PIN:** Upon order staging in a smart locker, an automated SMS/email releases a unique 6-digit numeric PIN code and a scanning QR code.
- **72-Hour Retrieval Window:** Locker access codes remain active for exactly 72 hours from the moment the staging notification timestamp is issued.

3.2 Unclaimed Orders & Restocking Fee Deduction

- **Unclaimed Order Cancellation:** Orders left uncollected in lockers or curbside holding bays past 5 business days are automatically canceled by store inventory management systems.
- **Restocking Fee Deductions:** Canceled unclaimed items are refunded back to the original payment method, minus a mandatory \$10.00 restocking fee deduction per unclaimed order to cover reverse logistics costs.

4 Delegated Alternate Pickup Person Directives

Customers who cannot retrieve their order in person may assign an Alternate Pickup Person during online checkout by specifying their legal full name and email address. The alternate individual must present their own matching government-issued photo ID upon pickup.
